

Certificate of Security Excellence

This is to certify that

American Book Company

has successfully completed a comprehensive security
assessment conducted by **CyberGlobal**.

Assessment Overview

Between **Monday, October 20, 2025** and **Monday, October 27, 2025**, CyberGlobal performed an in-depth **Web Application Security Assessment for the CourseWave App** to evaluate potential risks that a real-world, targeted attacker could pose to the security and integrity of the company's systems.

Achievement

The **CourseWave Web Application** has demonstrated exceptional commitment to security by successfully remediating all identified high-risk and critical vulnerabilities. During the subsequent retesting phase, no new critical or high-risk issues were discovered. This achievement confirms that the environment is free of unmitigated risks.

Recognition

We recommend **American Book Company** for its dedication to maintaining the highest standards of cybersecurity. This accomplishment reflects the company's proactive approach to safeguarding its assets and reinforces trust with clients, partners, and stakeholders.

Conclusion

As of **29.01.2026**, CyberGlobal attests that **American Book Company** has established robust and effective security measures. The organization's environment has been thoroughly evaluated and is hereby designated as Secure and Trusted.

Stakeholders can have full confidence in the integrity and resilience of **American Book Company's** systems.
